Solutions BI Engineer at Google

September 8, 2025, Siddharth reported directly to Aayush

Aayush was my manager on the Google Cloud Cross Platform Engineering team from 2022 - 2024. During this time, Aayush was a visionary, charting a new course for application development and user experience. To this day, the projects and products he worked on live on and set the standard for public-facing Cloud Solutions discovery and assessments. Aayush was a great manager and always advocated for his direct reports, encouraging team cohesion and friendship.
